Aims and Scope

Journal of Critical and Intensive Care (J Crit Intensive Care) is the scientific and official publication of the Turkish Society of Medical and Surgical Intensive Care Medicine. The journal is an international open access journal, published 3 times a year (April, August, December) and all of its contents are freely available at cost and there is no fee for submission and publication. All processing is conducted through the online submission system on the web site: www.jcritintensivecare.org. Only manuscripts written in English are accepted. It publishes original clinical, basic and translational research articles, case reports and letters to the editor related to intensive/critical care medicine including pediatric intensive care; neurointensive care; intensive care nursing; physiotherapy, nutrition and pharmacology in intensive care, as well as acute and emergency medicine. Editorials and review articles are only accepted upon invitation of the editor.

Manuscripts are accepted for publication through an independent unbiased and double-blinded peer review process.

The target group of Journal of Critical and Intensive Care is physicians and healthcare staff at clinical and basic science departments who are interested in intensive care. The full texts of all articles are issued online at (www.jcritintensivecare.org) and are available in PDF format. Instructions to Authors are available on journal pages and in the following link: www.jcritintensivecare.org.

Journal of Critical and Intensive Care is indexed in Web of Science Emerging Sources Citation Index (ESCI), TUBITAK ULAKBIM TR Index, EMBASE, Scopus, EMCare, CINAHL, Gale/Cengage Learning, EBSCO, HINARI, ProQuest and Turkiye Citation Index.

Disclaimer: All opinions and reports within the articles that are published in the Journal of Critical and Intensive Care are the personal opinions of author(s), not editors-in-chief’s, editorial boards’ or the publisher’s. The Turkish Society of Medical and Surgical Intensive Care Medicine, editors-in-chief, editorial board and the publisher do not accept any responsibility for these articles.

e-mail: editor@jcritintensivecare.org
Journal of Critical and Intensive Care (J Crit Intensive Care) is the scientific and official publication of the Turkish Society of Medical and Surgical Intensive Care Medicine. The journal is an open access journal, published 3 times a year and all of its contents are freely available with no cost and there is no fee for submission. It accepts manuscripts written in English and evaluates submissions through its online submission system on the website www.jcritintensivecare.org only. It publishes original clinical, basic and translational research articles, case reports and letters to the editor related to intensive/critical care medicine and acute medicine. Editorial and review articles are only accepted upon invitation of the editor.

Manuscripts are accepted for publication through an independent unbiased and double-blinded peer review process. Authors are encouraged to suggest reviewers from other institutions; however, the editorial board will make the final selection of reviewers. As well, the editorial board reserves the right to reject the manuscripts not suitable for publication or the right to return manuscripts to authors for revision.

All submitted manuscripts must comply with the instructions specified below:

1. The authors must state that the submitted manuscript is an original work that has not been previously published or is not currently under consideration for publication elsewhere.
2. During the submission process of the manuscript the authors must sign the "Copyright Transfer Agreement". No changes to the authorship (order, deletions or additions) are allowed after this stage and copyrights are directly transferred to the Turkish Society of Intensive Care for Internal and Surgical Medicine.
3. All content (text, figures, graphics, tables and others) which has been "sent for publication should be original. If not, permission from related person and/or institutions regarding copyright should have been obtained by the authors.
4. If the manuscript was partially or completely presented as a thesis or an abstract at a meeting, it should be clearly stated in the "Acknowledgements" section.
5. Foundations, organizations, drug and medical device companies that make a complete/partial contribution in cash and in kind, project funding, scholarships, etc. should be mentioned in the "Acknowledgements" section.
6. The authors should disclose any conflict of interest and any financial support that has been received relevant to the submitted manuscript in the "Acknowledgements" section.
7. The full name(s), highest academic degree(s), affiliation(s), role(s) (hypothesizing, manuscript drafting, analysis, etc.) of author(s)
8. Name and address for corresponding author (including phone, e-mail address)
9. Abstract: aim, study design, materials and methods, results, conclusion, maximum 250 words.
10. Keywords Four to eight keywords must be supplied, see www.nlm.nih.gov/mesh/MBrowser.html.
11. Main Body: The main text should include the following sections: Introduction, Materials and Methods, Results, Discussion and Conclusion. The background in the "Introduction" section should not be too long. Aim(s) or hypothesis must be clearly stated in the final paragraph of the "Introduction". The "Materials and Methods" section should include study design and statistical analysis. Unnecessary overlap between tables, figures and text should be avoided. Subheadings should be used in order to provide a better understanding in the "Results" and "Discussion" sections. The "Conclusion" section should comment on the main findings of the study in 1 or 2 sentences.
7. **Tables:** Tables should be included after the references according to their sequence in the text. All tables should be titled. The use of abbreviations in the table title should be avoided if possible. If not, expansions of the abbreviations in the table should be listed as footnotes to the table. Table title must appear at the top of the table. Expressions of the results (i.e., mean±standard deviation or median and interquartile ranges) as well as units of measurements should be stated in tables. Each table should be typed on a separate page and should be numbered with Arabic numerals. P values should be provided.

8. **Figures:** Figures should be numbered with Arabic numerals according to their sequence in the text. Each figure should be submitted as separate files using JPG or TIFF format. For each figure, the file name should include the figure number. Expansion of each abbreviation should be listed in figure legend. P values should be indicated in figure legends. If applicable, statistical significance should be indicated by an asterisk on the figure.

9. **Figure Legends:** Figure legends should be self-explanatory and should be listed at the end of the text, after figures. Figure legends should be listed consecutively on a separate page. The use of abbreviations should be avoided.

10. **References:** Unpublished data and studies should not be included in the reference list. They must be cited in the text as "name(s), unpublished data, 19..." References should be listed according to their sequence in the text. Each reference should be cited in the text by Arabic numerals between brackets. Names of all authors (name and initial) should be listed when there is three or less. When there are four or more authors, the first three should be listed, followed by "et al." Full title of cited article, title of journal (abbreviated), year of publication, volume of the journal and page numbers should be included after author's names and initials.

   **Journal article:**

   **Chapter in a book:**
   Name of chapter author(s), title of chapter, name(s) of editor(s), title of book, publisher name, edition of book, year of publication and page numbers should be included.

11. **Acknowledgements**

    **A review article should include the following sections:**
    Review articles in Journal of Critical and Intensive Care are published as invited articles.
    1. Title
    2. The full name(s), highest academic degree(s), affiliation(s) of author(s)
    3. Name and address for corresponding author (including phone, e-mail address)
    4. Abstract
    5. Keywords (see original research article)
    6. Main Body: Appropriate subheadings should be used. The "Conclusion" section should include the main inference of the manuscript in 1 or 2 sentences.

    **A case report should include the following sections:**
    Identifying details of patients should not be included in the manuscript, figures, tables etc. Authors must obtain written informed permission from the patient, or next of kin for case reports. Copies of the permission must be provided when asked for.
    1. Title
    2. The full name(s), highest academic degree(s), affiliation(s) of author(s)
    3. Name and address for corresponding author (including phone, e-mail address)
    4. Abstract
    5. Keywords (see original research article)
    6. Main Body: Introduction, Case(s), Discussion and Conclusion should be included. In case series, cases should be numbered (i.e. Case 1)
    7. Tables, figures and figure legends (original see research article)
    8. References (see original research article)
    9. Acknowledgements

**Editorial**
It is the brief evaluation of published manuscripts by an authority assigned by Editor-in-Chief. It can include subheadings; however, an abstract is not required. Tables and figures are not included in editorial.

**Letters to the editor**
Letters submitted within 2 months after the publication of an editorial in PDF format on the web page, will be accepted, if deemed appropriate, and will be published soon after or in the subsequent volume of the published editorial together with author’s response.

Letters to the editor and author’ response should include the following sections:

1. Title (English)
2. The full name(s), highest academic degree(s), affiliation(s) of author(s)
3. Name and address for corresponding author (including phone, e-mail address)
4. Main Body: It should begin with the statement of “To the Editor”. Maximum one table or one figure can be included
5. References

**Copyright transfer**
Authors are responsible for opinions and suggestions as well as the accuracy of references in the manuscript. No copyright fee is paid for the manuscripts submitted to the journal. The publication rights of accepted manuscripts are directly transferred to the publisher. The authors should send duly signed “Copyright Transfer Agreement” to the publisher, during the manuscript submission.
Contents

ORIGINAL INVESTIGATION

1 Predictors of Intraventricular Hemorrhage in the Neonatal Intensive Care Unit
   Hakan ONGUN, Sariye Elif OZYAZICI OZKAN

8 Serial C1 Inhibitor Levels in Patients with Ventilator-Associated Pneumonia: A Prospective Observational Study
   Gurhan TASKIN, Ali SELCUK, Serhat UYSAL

15 Simple Prognostic Markers to Predict Mortality in Intensive Care Unit:
   Red Cell Distribution Width
   Ahmet ERDOGAN, Kazim SENOL, Deniz ERDEM, Enes Malik UCKAN, Mesut TEZ

20 Intensive Care Unit Admission Predictors of Geriatric Patients Who Underwent Hemiarthroplasty due to Hip Fracture
   Okkes Hakan MINIKSAR, Osman KACMAZ, Ahmet YUKSEK, Ahmet AYDIN, Hakan OZ

27 Evaluation of Hyperkalemia Associated with Trimethoprim-Sulfamethoxazole in the Intensive Care Unit
   Tugce MENGİ, Huseyin OZKOK, Bilgin COMERT
